**One Page Report**

**Name of the Activity : Diagnostic Test (Financial Accounting)**

**Department** : Department of Commerce & Management

**Date** : 25th September 2025

**Venue** : B.Com I Classroom

**Aims/Objectives :**

1. To assess the basic accounting knowledge of students.
2. To identify learning gaps among first-year students.
3. To evaluate the understanding of fundamental accounting concepts before regular teaching begins.
4. To plan appropriate remedial measures for improvement.

**Beneficiaries:**

- B.Com Part I Students
- Total Number of Beneficiaries: 70 Students

**Nature of the Activity:**

The Department of Commerce organized a Diagnostic Test for the students admitted to B.Com Part I in the subject of Financial Accounting. The main purpose of this activity was to evaluate the students' prior knowledge and understanding of basic accounting principles, which they had learned at the higher secondary level.

This test helped the teachers to identify the individual learning needs of students and to design further teaching strategies accordingly. The question paper consisted of objective-type questions, short theory-based questions, and journal entry problems, based on the syllabus of fundamental accounting.

The activity was conducted under the guidance of Hon. Principal Dr. V. V. Padalkar. Students participated enthusiastically and performed sincerely in the test. The evaluation report provided valuable insights about the students' conceptual understanding, calculation skills, and presentation ability.

**Outcomes :**

- ❖ Identified the strengths and weaknesses of students in accounting fundamentals.
- ❖ Helped teachers to plan remedial and bridge sessions effectively.
- ❖ Improved students' confidence and readiness for upcoming semester examinations.
- ❖ Encouraged active participation and self-assessment among learners.
